Brief Company Overview* <p>Trinity Technology Group (TrinityTG) is a California-based IT consulting firm. Since our inception in 1999, we have successfully implemented numerous, end-to-end total solutions for our customers. This includes Agile implementations of end-to-end system integration, custom software solutions, COTS products, business process analyses, business intelligence and data analytics projects, Agile coaching, enterprise technical architecture planning services, and maintenance and operations support. For over 17 years, our clients have been State of California agencies, a number of municipal government agencies, and a few private sector firms. We currently have 95 professionals working with a variety of clients.</p>
